OBJECTIVE

Software engineering graduate targeting **Java / Spring Boot Backend** roles, with hands-on experience building production-grade **microservices** using **Spring Boot, Kafka, Kubernetes**, and **PostgreSQL**. Demonstrated ability to design fault-tolerant distributed systems achieving 3× throughput and 5,000 RPS.

EDUCATION

Lovely Professional University

Aug. 2022 – May 2026

Bachelor of Technology in Computer Science

Punjab, India

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, System Design, Databases, Computer Systems, Computer Networks

PROJECTS

SeatForge – Distributed Seat Reservation System | **Spring Boot, PostgreSQL, Kafka, Kubernetes** GitHub

- Built and maintained a distributed system for seat reservations using **Spring Boot**, guaranteeing strict data consistency and fault tolerance in high-concurrency transactions to prevent double-booking.
- Migrated to a **microservices architecture** and deployed via Docker and **Kubernetes** behind an Nginx load balancer, achieving 3× **throughput** and sustaining **5,000 RPS**.
- Optimized backend performance by integrating Redis caching and a **Kafka** messaging queue, reducing database load by **65%** and eliminating N+1 query bottlenecks.

RideSync – Real-Time Spatial Dispatch Engine | *Go, PostgreSQL, Redis, Docker, AWS*

 GitHub

- Architected a high-performance real-time ride-hailing backend taking full ownership of Low-Level Design (LLD) and system architecture to dynamically match users in <2ms.
- Sustained **10,000+** simultaneous WebSocket streams without data race conditions; reduced SQL I/O overhead by **99.8%** via asynchronous batch-processing workers.

Skill India – Laravel Course Management System | *Laravel, PHP, MySQL*

 GitHub

- Built a dual-module course management platform with role-based authentication, CRUD operations, and an admin analytics dashboard over a centralized MySQL database.

TECHNICAL SKILLS

Languages : Java, Go (Golang), PHP, Python, C/C++, JavaScript, SQL, NoSQL

Backend Services : Spring Boot, RESTful APIs, Microservices Architecture, MVC Architecture, FastAPI, Node.js

Architecture & Design : Low-Level Design (LLD), System Design, Distributed Systems, Microservices Architecture

Infrastructure & Cloud : Kubernetes, AWS, Docker, CI/CD, Linux, Monitoring & Logging

Databases & Messaging : PostgreSQL, Kafka, Redis, MySQL, MongoDB, RabbitMQ

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode:** Solved **400+** problems (161 Easy, 190 Medium, 50 Hard) with an **82.86%** acceptance rate; Global Ranking **1,700**.
- **Standard Membership, Google Developer Program:** Active member utilizing enterprise tools to troubleshoot, debug, and optimize application code.
- **Smart India Hackathon (SIH):** Ranked **Top 10** internally with a **97/100** evaluation score; showcased strong problem-solving skills in a highly collaborative environment.
- **Certifications:** Cloud Computing (NPTEL), Blockchain Specialization (Coursera).
