OBJECTIVE

Software engineering graduate targeting **Python Backend** roles (**Django / FastAPI / Flask**), with strong foundations in **RESTful API design**, **PostgreSQL**, asynchronous processing, and system design. Experienced in building backend services with an emphasis on clean architecture, performance optimisation, and cloud-native deployment.

EDUCATION

Lovely Professional University

Aug. 2022 – May 2026

Bachelor of Technology in Computer Science

Punjab, India

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, System Design, Databases, Computer Systems, Computer Networks

PROJECTS

RideSync – Real-Time Spatial Dispatch Engine | *Go, PostgreSQL, Redis, Docker, AWS*

🔗 GitHub

- Architected a high-performance real-time backend, taking full ownership of Low-Level Design (LLD) and system architecture to dynamically match users in **<2ms**.
- Built asynchronous background workers for batch processing, reducing SQL database I/O overhead by **99.8%** a pattern directly applicable to **Celery** / async task queues in Python services.
- Sustained **10,000+** simultaneous connections and deployed the full stack on **AWS** with Docker containers.

SeatForge – Distributed Seat Reservation System | *Spring Boot, PostgreSQL, Kafka, Kubernetes*

🔗 GitHub

- Designed a distributed microservices system with strict data consistency, Kafka event streaming, and Redis caching, reducing database load by **65%** and reaching **5,000 RPS**.

Skill India – Laravel Course Management System | *Laravel, PHP, MySQL*

🔗 GitHub

- Built a dual-module course management platform with role-based authentication, CRUD operations, and an admin analytics dashboard over a centralized relational database.

TECHNICAL SKILLS

Languages : Python, Go (Golang), Java, PHP, C/C++, JavaScript, SQL, NoSQL

Backend Services : FastAPI, Django, Flask, RESTful APIs, Laravel, Spring Boot, Node.js

Architecture & Design : Low-Level Design (LLD), System Design, Microservices Architecture, Distributed Systems

Infrastructure & Cloud : AWS, Docker, Kubernetes, CI/CD, Linux, Monitoring & Logging

Databases & Messaging : PostgreSQL, Redis, MySQL, MongoDB, Kafka, RabbitMQ

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode:** Solved **400+** problems (161 Easy, 190 Medium, 50 Hard) with an **82.86%** acceptance rate; Global Ranking **1,700**.
- **Standard Membership, Google Developer Program:** Active member utilizing enterprise tools to troubleshoot, debug, and optimize application code.
- **Smart India Hackathon (SIH):** Ranked **Top 10** internally with a **97/100** evaluation score; showcased strong problem-solving skills in a highly collaborative environment.
- **Certifications:** Cloud Computing (NPTEL), Blockchain Specialization (Coursera).
