OBJECTIVE

Software engineering graduate targeting **DevOps / Cloud** roles, with hands-on experience deploying production systems on **AWS** with **Docker**, **Kubernetes**, and **CI/CD** pipelines. Built and operated cloud-native infrastructure handling **10,000+** concurrent connections and **5,000 RPS**, with Nginx load balancing and container orchestration.

EDUCATION

Lovely Professional University

Aug. 2022 – May 2026

Bachelor of Technology in Computer Science

Punjab, India

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, System Design, Databases, Computer Systems, Computer Networks

PROJECTS

RideSync – Cloud-Native Dispatch Engine | Go, Docker, AWS, PostgreSQL, Redis

GitHub

- Deployed a high-performance real-time backend on **AWS** using containerised **Docker** services, handling **10,000+** simultaneous WebSocket connections with sub-2ms ride-matching latency.
- Designed an asynchronous batch-processing pipeline reducing SQL I/O overhead by **99.8%**, with full observability via structured logging and health-check endpoints.
- Managed the entire infrastructure lifecycle from local development to cloud deployment, maintaining zero-downtime service availability.

SeatForge – Microservices on Kubernetes | Spring Boot, Kubernetes, Docker, Kafka, PostgreSQL

GitHub

- Migrated a monolithic reservation system to **microservices** and orchestrated deployment on **Kubernetes** behind an **Nginx** load balancer, achieving **3× throughput** and **5,000 RPS**.
- Integrated **Kafka** for asynchronous event streaming and Redis caching to reduce database load by **65%**, with monitoring and alerting for service health.

Skill India – Laravel Course Management System | Laravel, PHP, MySQL

GitHub

- Built a dual-module course management platform with role-based authentication, CRUD operations, and an admin analytics dashboard over a centralized MySQL database.

TECHNICAL SKILLS

Languages : Go (Golang), Python, Java, PHP, C/C++, JavaScript, SQL, NoSQL

Backend Services : RESTful APIs, Spring Boot, Laravel, FastAPI, Node.js, MVC Architecture

Architecture & Design : Microservices Architecture, Distributed Systems, System Design, Low-Level Design (LLD)

Infrastructure & Cloud : AWS, Docker, Kubernetes, CI/CD, Linux, Monitoring & Logging

Databases & Messaging : PostgreSQL, Redis, Kafka, MySQL, MongoDB, RabbitMQ

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode:** Solved **400+** problems (161 Easy, 190 Medium, 50 Hard) with an **82.86%** acceptance rate; Global Ranking **1,700**.
- **Standard Membership, Google Developer Program:** Active member utilizing enterprise tools to troubleshoot, debug, and optimize application code.
- **Smart India Hackathon (SIH):** Ranked **Top 10** internally with a **97/100** evaluation score; showcased strong problem-solving skills in a highly collaborative environment.
- **Certifications:** Cloud Computing (NPTEL), Blockchain Specialization (Coursera).
