OBJECTIVE

Software engineering graduate targeting **Full Stack** roles, with strong backend skills in **Node.js**, **RESTful APIs**, and **SQL / NoSQL databases**, complemented by working knowledge of **React** and modern frontend development. Experienced in building end-to-end web applications from database schema to UI, with a focus on performance and clean architecture.

EDUCATION

Lovely Professional University

Aug. 2022 – May 2026

Bachelor of Technology in Computer Science

Punjab, India

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, System Design, Databases, Computer Systems, Computer Networks

PROJECTS

Skill India – Full Stack Course Management Platform | *Laravel, PHP, MySQL, Blade UI*

🌐 GitHub

- Built a full-stack, dual-module course management platform with a server-rendered **Blade UI**, RESTful APIs, and a centralized **MySQL** database serving both admin and learner-facing applications.
- Implemented role-based authentication, session management, and full CRUD workflows, plus a real-time admin analytics dashboard with enrollment tracking.
- Designed relational database schemas using **Laravel** migrations and seeders, following MVC conventions for clean separation of concerns.

RideSync – Real-Time Backend Engine | *Go, Node.js-style WebSockets, PostgreSQL, Redis, AWS* 🌐 GitHub

- Architected a full-duplex **WebSocket** backend handling **10,000+** simultaneous real-time connections at sub-2ms latency, with asynchronous event processing reducing DB I/O by **99.8%**.
- Deployed the service on **AWS** with Docker, providing a cloud-native foundation for frontend clients to consume via **RESTful APIs** and WebSocket endpoints.

SeatForge – Distributed Reservation System | *Spring Boot, PostgreSQL, Kafka, Kubernetes*

🌐 GitHub

- Built microservices-based backend APIs consumed by frontend clients, achieving 3× throughput at 5,000 RPS with Kubernetes and Redis caching.

TECHNICAL SKILLS

Languages : JavaScript, PHP, Go (Golang), Java, Python, C/C++, **SQL**, NoSQL

Frontend : React, HTML5, CSS3, Blade (Laravel)

Backend Services : Node.js, RESTful APIs, WebSockets, Laravel, Spring Boot, FastAPI

Architecture & Design : MVC Architecture, System Design, Microservices Architecture, Low-Level Design (LLD)

Infrastructure & Cloud : AWS, Docker, Kubernetes, CI/CD, Linux

Databases & Messaging : MySQL, PostgreSQL, MongoDB, Redis, Kafka

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode:** Solved **400+** problems (161 Easy, 190 Medium, 50 Hard) with an **82.86%** acceptance rate; Global Ranking **1,700**.
- **Standard Membership, Google Developer Program:** Active member utilizing enterprise tools to troubleshoot, debug, and optimize application code.

- **Smart India Hackathon (SIH):** Ranked **Top 10** internally with a **97/100** evaluation score; showcased strong problem-solving skills in a highly collaborative environment.
- **Certifications:** Cloud Computing (NPTEL), Blockchain Specialization (Coursera).
